# INNOVATECH

PROJECT PROGRESS

Percentage of Progress:

Knowing that Sprint 6 is the second-to-last sprint we have before our actual presentation, we are really hurrying to finish each component and feature we have. We also plan to remove some features because we no longer have enough time. For Sprint 6, we finished the backend for each component, such as the search and fetching details of the recipe, as well as the forgot and recovery password for the login component.

Overall, this sprint went well. Even though we had some difficulties, we were still able to accomplish each task on or before the due date.

Completed Tasks List:

Sprint 4 · · · ☉ 📅 6/10/2024 - 6/15/2024

✅ COMPLETE 9 · · · + Add Task

Name	Assignee	Due date	Status
✅ Connect Database in mysql	CA K	Jun 11	✅ COMPLETE
✅ Finalize Frontend All Features	CA	Jun 11	✅ COMPLETE
✅ Recipe Details	RA CA	Jun 14	✅ COMPLETE
✅ Sign up - (Add user to users table from db)	MA	Jun 14	✅ COMPLETE
✅ Profile Layout	K	Jun 14	✅ COMPLETE
✅ Fix kung saan mapupunta si user kapag di nakalog in	MA	Jun 14	✅ COMPLETE
✅ Reflect the Carousel View from Backend to Frontend	CA	Jun 14	✅ COMPLETE
✅ Add Recipe (Frontend and Function)	K	Jun 14	✅ COMPLETE
✅ Search Button Function	RA SS	Jun 14	✅ COMPLETE
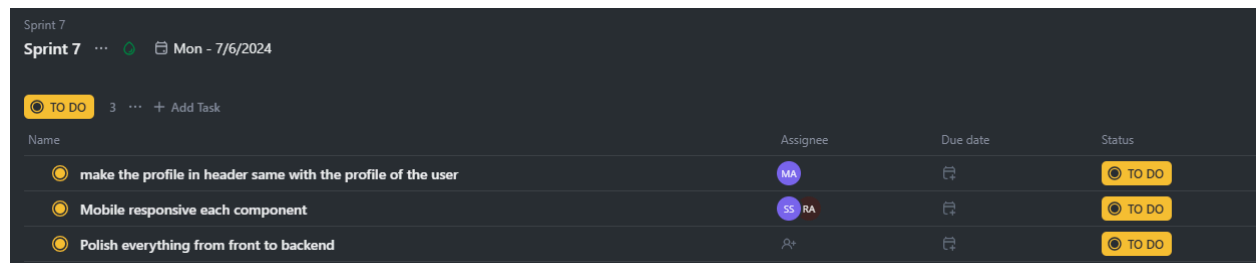

Sprint 5 · · · ☉ 📅 6/17/2024 - 6/22/2024

✅ COMPLETE 15 · · · + Add Task

Name	Assignee	Due date	Status
✅ Make the edit profile functionality works (backend)	K	Jun 22	✅ COMPLETE
✅ Make the search bar works when I search recipe	RA	Jun 22	✅ COMPLETE
✅ Personalize your Taste make this already working	CA	Jun 22	✅ COMPLETE
✅ Add email verification in Sign up	MA	📅	✅ COMPLETE
✅ Add forgot password with function na	MA	Jun 22	✅ COMPLETE
✅ Display the Recipe Details in frontend	RA SS	Jun 22	✅ COMPLETE
✅ Start with Community (can able to post) - reflected to db	K RA	Jun 22	✅ COMPLETE
✅ Snack Bar in Warning or successful messages	K CA MA RA SS	Jun 22	✅ COMPLETE
✅ Fix the add recipe reflected to the actual user	K	📅	✅ COMPLETE
✅ Try to make that when user first sign up yung username makikita	K	Jun 22	✅ COMPLETE
✅ Modify the Routine after Logging In	MA	Jun 22	✅ COMPLETE
✅ In Latest Recipe you made (Make that there's message when user's not log in)	CA	Jun 22	✅ COMPLETE
✅ Use case test	SS	📅	✅ COMPLETE
✅ Fix the Carousel (with image)	CA	Jun 22	✅ COMPLETE
✅ Make each meal category (search comp) working	CA	Jun 22	✅ COMPLETE

SPRINT 6 PROGRESS

Sprint 6
▼ Sprint 6 · · · ☉ 📅 5 days ago - Today

✅ COMPLETE 14 · · · + Add Task

Name	Assignee	Due date	Status
✅ User can change their profile avatar	K	3 days ago	✅ COMPLETE
✅ Fix the display when first enter on the website	CA	5 days ago	✅ COMPLETE
✅ Display the Latest Recipe in Frontend reflected in db	CA	2 days ago	✅ COMPLETE
✅ update ui for forgot password	MA	5 days ago	✅ COMPLETE
✅ Fix the carousel with image displaying already	CA	5 days ago	✅ COMPLETE
✅ Display Popular Recipes from backend to Frontend (with image)	CA	4 days ago	✅ COMPLETE
✅ Fix the Sign Up frontend	RA	5 days ago	✅ COMPLETE
✅ Make the Save button already can saved reflected to db	K	4 days ago	✅ COMPLETE
✅ Modify community component (username)	MA	2 days ago	✅ COMPLETE
✅ When I search an ingredient it will work (backend)	SS	4 days ago	✅ COMPLETE
✅ Make the Search by Categories already working with results	CA RA	3 days ago	✅ COMPLETE
✅ Make the saved recipes working from db to frontend	K	3 days ago	✅ COMPLETE
✅ Make ratings from recipe details	RA	3 days ago	✅ COMPLETE
✅ Add comment function in community component	MA	2 days ago	✅ COMPLETE

SPRINT 7 PLANNING

Sprint 7
Sprint 7 ··· ○ ⊟ Mon - 7/6/2024

● TO DO   3   ···   + Add Task

Name	Assignee	Due date	Status
● make the profile in header same with the profile of the user	MA	⊟	● TO DO
● Mobile responsive each component	SS RA	⊟	● TO DO
● Polish everything from front to backend	⊹	⊟	● TO DO

SPRINT RETROSPECTIVE

WHAT WENT WELL?

- For Sprint 6, everything went well, and I appreciate my teammates for accomplishing each task by the given due date I assigned to them. I am also happy because almost all of our backend is working properly.
- All of the displays in our frontend are reflected based on the data from our backend database. Users can also click the forgot password, and the images are properly fetched and displayed in our frontend.

WHAT COULD BE IMPROVED?

- One of the most important things my team and I should always remember is to remind ourselves about the coding guidelines and follow them at all times.

WHAT NEEDS TO BE DONE?

- Before the mock-up defense, we will polish everything from our code structure to the frontend structure of our application. We will ensure it is responsive and remove all unnecessary debugging logs.

  - Make the entire web application mobile responsive
  - Polish everything from backend to frontend
  - Finish the "share to community" feature
  - Complete the CRUD operations for the recipe form

-
